A note of thanks

Ahmed El-Heneidy*

At the end of this remarkable year, I wish to express my sincere gratitude, also on behalf of the other editors, the members of the editorial board and the publisher of the Egyptian Journal of Biological Pest Control, to the referees of the articles considered for the 2021 volume of EJBPC. Hundreds of busy colleagues have spent their time in assessing close to 805 manuscripts submitted to our Journal, up from around 720 in 2020, in selecting the ones that may possibly be published, and in improving the quality of the selected articles. Many of the reviewers have helped us in the past years as well, and we are tremendously appreciative and grateful to them. It is largely thanks to them that EJBPC is doing well in attracting and publishing research articles in the field of biological and integrated pest control (non-chemical control).
